PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience delivering production-ready web applications and internal healthcare systems. Contributed to the development and deployment of multiple enterprise solutions, including a complaint management system that reduced manual workload by **80%** through workflow automation. Proficient in React, Next.js, Node.js, TypeScript, MySQL, and Oracle Database, with a strong focus on scalable architecture, clean code, and building high-performance applications that solve real-world business challenges.

Technical Skills

Languages: JavaScript, TypeScript, SQL | **Frontend:** React, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs | **Database:** MySQL, Oracle Database | **Tools:** Git, GitHub, Postman, Figma

PROFESSIONAL EXPERIENCE

King Abdulaziz Hospital – Full-Stack Developer Jul 2025 – Dec 2025

Internal 937 Complaint Management System

- Reduced manual workload by 80% through workflow automation.
- Developed and deployed a production-ready full-stack complaint management system using Node.js and MySQL.
- Successfully deployed the system across 5 hospital departments and provisioned 50+ user accounts.
- Improved complaint visibility through real-time tracking and analytics dashboards.

Internal Hospital Website

- Developed and deployed a responsive internal web platform for hospital staff.
- Created a centralized communication portal used by the Media Department to publish news and announcements across hospital departments.
- Enabled content management by non-technical users without requiring development support.
- Improved internal communication and accessibility through a responsive, user-centered design.

Multi-Hospital Database Automation

- Automated hospital database provisioning.
- Standardized database structures across multiple hospitals.
- Reduced setup time for new deployments.

Projects

Rahhal – Smart Travel Platform Feb | 2026 – Jul 2026

- Developed AI-powered travel platform using React, Next.js, and TypeScript.
- Integrated OpenAI and REST APIs.
- Live Demo: [Rahhal.it.com](#) | GitHub Frontend: [Rahhal Front](#) | GitHub Backend: [Rahhal Backend](#)

Health Volunteer App (2nd Place) | Oct 2024 : Designed the UI/UX using Figma, creating intuitive user interfaces and user flows focused on accessibility and usability. [Design Prototype \(Figma\)](#)

Education

Education: B.Sc. in Software Engineering | Umm Al-Qura University | GPA: 3.82/4.00

Languages

Arabic (Native) | English (Professional Working Proficiency)
